

55" Windows PCAP Touch Screen Kiosks

Fully integrated kiosk solution featuring rear ports and connections for use with built-in or third party

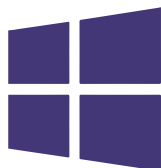

All in One Touch Kiosk

Combining edge-to-edge glass PCAP technology with a stylish and secure kiosk. The ergonomic design, along with the built in Windows PC and facility to seamlessly use a third party PC, sets this solution apart from other touch screen kiosks.

Integrated Windows Solution

This solution comes as standard with an integrated Windows PC that can deliver impressive performance 24/7. However, we do offer an upgrade to a more powerful Windows PC that's capable of more advanced features.

Integrated Windows PC

Connect External Devices

4K

4K Display

24/7 Commercial Grade

10-Point PCAP Touch

500cd/m² IPS Panel

Internal Locker

Surface Plasma Treatment

Integrated Speakers

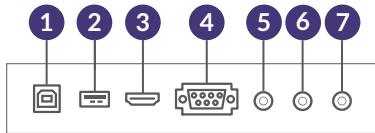

3 Year Commercial Warranty

Other Features

Internal locker

Should you need to connect the screen to an external source, like a PC or media player, you can use the USB and HDMI or VGA inputs and hide the player inside the internal locker.

- 1 TOUCH USB
- 2 USB
- 3 HDMI
- 4 VGA
- 5 AUDIO IN
- 6 AV INPUT
- 7 AUDIO OUT

24/7 Commercial Use

These displays use a commercial grade LCD panel and LED backlight. They have the ability to be in constant use 24/7 for over 70,000 hours and have no external buttons or controls to avoid tampering.

Giant Tablet Styling

Their tempered edge-to-edge glass face, rounded corners, super slim profile and unique concave indent aluminium surround all add to the stunning tablet-like aesthetics as well as protecting the internal components from potential damage.

Concave Indent Profile

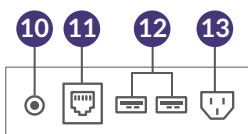

Integrated Speakers

The displays feature two integrated slimline speakers for applications that require an audio element.

Rear Connections

Whether you are using the integrated PC or a third party device inside the internal locker you can use the connections on the rear to conveniently connect your USB, Ethernet cable, power cable and Wi-Fi aerial directly to the touch screen.

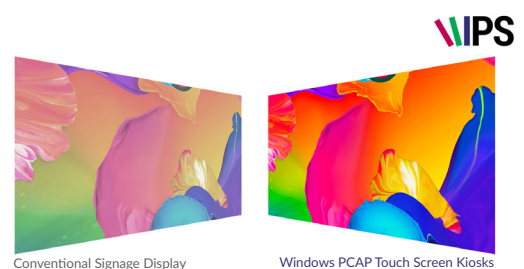

- 10 Wi-Fi
- 11 LAN
- 12 USB x 2
- 13 Power Socket

500cd/m² IPS Panel

Commercial grade IPS technology accurately displays image quality and colour depth with no fall-off in colour accuracy. These panels are designed to achieve ultimate lifelike colour temperature when used in either landscape or portrait.

Android Version

If your project does not require an integrated Windows OPS media player we can offer a model with an integrated Android Media Player.

10 Point PCAP Touch

Having up to 10 touch points allows you to manipulate images, zoom in an out as well as perform many other touch gestures; much like you would with a domestic tablet. It also allows for multiple users interacting with the screen at one time.
